welcome to frankie's

We've made it easy for you to identify dishes that don't contain gluten and those that have a Gluten Free Option (GFO), if you have an intolerance.

GFO

However, if you're coeliac, please tell the staff so that the chef knows to thoroughly prep the area to avoid cross-contamination.

And this little plant symbol shows you which dishes are vegetarian (please note that most of our Asian dishes allow you to add your choice of meat).

This dish has a little bit of a chili kick. If you'd like it prepared to a milder taste, please let your server know.

We take pride in preparing each dish fresh-to-order. Some dishes take a little longer than others, but they are definitely worth the wait!

please let us know...

If you have food allergies, make sure you tell our staff.
